

Sample In. Result Out.

Test Registration • Sample Tracking • Analyzer Interface • Result Reporting • NABL Compliance • Analytics

The Laboratory Information System in ChironMed Lab manages the full lifecycle of a diagnostic test — registration to reporting, accurate and on time.

THE SAMPLE JOURNEY

CORE CAPABILITIES

Patient test registration — efficient intake, tied to the record from the first field

Sample tracking — every specimen accounted for, start to finish

Analyzer interface — results captured directly from instruments

Result reporting — accurate, released the moment it's ready

Pathology, biochemistry & microbiology — all three on one system, together

NABL compliance enabled — clinicians order tests directly from consultation

PROVEN IMPACT

2-3%

Improvement in lab turnaround time

3-5%

Improvement in revenues and costs

NABL

Compliance enabled for your lab

** Improvements based on baseline performance of the unit and modules deployed*

OPTIONAL ADD-ONS

WhatsApp Integration & Notifications

Marketing Campaign Management

Microsite

Document Management

Blood Bank

Workforce Management (HRM)

Quantum / Intranet

eLearning

Virtual Classroom
